|                      |                  | Petition 96004 (R-128-95)<br>proposed permanent regulation that revised NAC 445A.144, standards for toxic materials applicable to designated waters.<br>Presentation by Chris Reitman of the Division of Agriculture on innovative techniques for water quality testing of pesticides.   |
| December 11, 1995    | Laughlin         | Tour of Southern California Edison's Mohave Powerplant<br>Review of Southern California Edison's Mohave Powerplant Visible Emission Opacity Restrictions   |
| December 12, 1995    | Las Vegas        | Petition 96005<br>amends NAC 459.9921 to 459.9999 to make changes prescribed by Assembly Bill 717 of the 1995 Legislative Session. The amendments add the use of risk based evaluations for the remediation of releases from tank systems and makes the requirements for remedial activities to be cost effective. In addition, the petition makes minor clarifications as to applicable federal requirements. This petition provides for regulatory relief to tank owners and operators.<br>Grand Canyon Visibility Transport Commission Status Update<br>Settlement Agreements:<br>Moltan Company NOAV 1169 & 1170<br>Cortez Gold Mine NOAV 1189 |
